All participants (applicant, applicant's representative, PTO personnel):

(1) Jack H. Morgan.(3) David Lee.(2) Nathan Newhouse.

(4) _____.

Date of Interview: 02 January 2008.

Type: a) ☒ Telephonic b) ☐ Video Conference
 c) ☐ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☒ No.

If Yes, brief description: _____.

Claim(s) discussed: Proposed amendments to claims 32 and 34.Identification of prior art discussed: Brown (US 5,409,144).Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The differences between the prior art and the current invention were discussed. The claims as amended (proposed) do not appear to define over the prior art of record. Defining the base, stopper or open end more particularly was discussed as possibilities for defining over the art of record. Examiner will consider further upon formal filing of an amendment.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Listing of Claims:

1-31. (canceled)

32. (currently amended) A flexible container for liquid cleanser comprising:

5 two flexible members forming a chamber therebetween for containing liquid cleanser, said flexible members have a modulus of elasticity conducive to liquid containment and gaseous inflation, said chamber containing liquid cleanser; and

a ~~flexible~~ closure having a hollow cylinder having an open first end and an open second end and having a flexible base for coupling ~~coupled~~ to at least one of said flexible
10 members for repetitive filling and expelling said liquid cleanser from said chamber in response to squeezing force selectively applied to at least one of said two flexible members; and
a stopper for sealing said open first end of said hollow cylinder.

33. (previously presented) The flexible container of Claim 32, further comprising:

15 a hanger for hanging said flexible container attached to one of said at least two flexible members or to the flexible sealing means; and
wherein said at least two flexible members are formed of vinyl material.

34. (currently amended) A bag for containing liquid cleanser, comprising:

20 a flexible bag body, said flexible bag body containing liquid cleanser;
a ~~flexible~~ closure for fluid exchange in response to squeezing force applied thereto, said ~~flexible~~ closure having a hollow cylinder having an open first end and an open second end and having a flexible base for coupling ~~attached~~ to said bag body; and
a plug for sealing said open first end of said ~~flexible~~ closure.

25 35. (previously presented) The container of Claim 34, further including a hanger.

36. (previously presented) The container of Claim 32, further comprising at least one insert
30 suspended in said liquid cleanser.

37. (currently amended) The container of Claim 36, wherein said at least one insert is of a predetermined size that prevents expulsion of said at least one insert from said flexible container via said ~~flexible~~ closure.

5 38. (canceled)

39. (canceled)

10 40. (previously presented) The container of Claim 34, further comprising at least one insert suspended in said liquid cleanser.

15 41. (currently amended) The container of Claim 40, wherein said at least one insert is of a predetermined size that prevents expulsion of said at least one insert from said flexible container via said ~~flexible~~ closure.

42. (previously presented) The container of Claim 32, wherein said chamber contains a liquid emulsifier.

20 43. (previously presented) The container of Claim 32, wherein said at least two flexible members form a chamber therebetween having a recognizable shape according to a predetermined plan.

25 44. (previously presented) The container of Claim 43, wherein said recognizable shape is selected from the group consisting of animal designs, geometric shapes and flower designs.

45. (previously presented) The container of Claim 43, wherein said recognizable shape is of an animal design.

30 46. (previously presented) The container of Claim 43, wherein said recognizable shape is of a geometric shape.

47. (previously presented) The container of Claim 43, wherein said recognizable shape is of a flower design.

5 48. (currently amended) The container of Claim 32, wherein said second end of said ~~flexible~~ closure is further defined as being sealed and extending into said chamber, and said ~~flexible~~ closure further comprises a transfigurable slit disposed near said second end.

49. (currently amended) The bag of Claim 34, wherein said ~~flexible~~ closure is a retractable valve cylinder, and wherein said second end of said ~~flexible~~ closure is sealed, and wherein said
10 ~~flexible~~ closure further comprising a transfigurable slit formed in said retractable valve cylinder adjacent to said sealed end for fluid exchange in response to squeezing force applied thereto.

50. (previously presented) The container of Claim 32, wherein said chamber contains a liquid soap.

51. (previously presented) The container of Claim 32, wherein said liquid cleanser is selected from the group consisting of liquid soap, bubble bath, shampoo and conditioner.
